Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has granted conditional registration to technical grade ipconazole and three end-use products for use in Canada on barley, corn, oats, rye, triticale and wheat. The specific uses approved in Canada are detailed on the product labels of Vortex FL Seed Treatment Fungicide, Rancona 3.8 FS Fungicide and Rancona Apex fungicide, *Pest Control Products Act* Registration Numbers 29174, 29175 and 29176, respectively.

Corresponding MRLs were proposed in the consultation document published on 27 September 2011, Proposed Maximum Residue Limit PMRL2011-32, *Ipconazole*. Import MRLs for ipconazole in or on dried shelled peas and beans (Crop Group 6C), dry soybeans and peanuts were also proposed in PMRL2011-32. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs for ipconazole take legal effect in Canada as of the publication date of this document.

Established Maximum Residue Limits for Ipconazole

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Ipconazole	2-[(4-chlorophenyl)methyl]-5-(1-methylethyl)-1-(1*H*-1,2,4-triazol-1-ylmethyl)cyclopentanol	0.01	Dried shelled pea and bean, except soybean (Crop Subgroup 6C); cereal grains (Crop Group 15, except rice); dry soybeans; peanuts

ppm = parts per million

MRLs are established for each commodity included in the listed crop groupings in accordance with the Residue Chemistry Crop Groups webpage in the Pesticides and Pest Management section of Health Canada's website.

A complete list of all pesticide MRLs established in Canada can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
